I will add that this OSC objective did not “kick off” until January of this year.

We are discussing with Chief Crowe the best way to measure this. And we have been discussing internally. I tend to think we need to be looking at two things:

1. First, there is a process evaluation. Is data driven deployment occurring?
2. Second, what impact is it having, which involves crime analysis in the hot spot areas “before and after.

Just my thoughts, but I defer to our academic experts.

Bill

Blair,

Max has been attending the TRAC meetings. We really haven't yet agreed upon what that metric will look like because, yes, Max's attendance has shown that the precinct commanders are using data at these meetings but how do you measure use? That itself doesn't provide a very relevant metric. We were recently considering whether precinct level crime data would have to suffice. Basically, this one is on the still in discussion now that we have more information list. So, short answer, that's the reason you didn't see a metric chart.

You might want to take note that the PSI is undertaking an interim evaluation later this year based on the new TRAC process. That is due somewhere around September.

Let me know if you have additional questions.

I don't remember the answer from afar! I assume we have something for this objective.

Brona and Bill I didn't see any metrics related to improving trac meetings/data driven policing. How are we measuring those?

Yes. The metrics document was set up as a PowerPoint. If you want specific charts, I can send you those individually. That is a bit time-intensive but you can also copy/paste right out of this document. However, sometimes the little text boxes do not copy along with the chart. You can use the snip it tool to create a resizable picture of the chart with all text boxes intact. Let me know if I can be of further assistance.

Thanks Brona. As I look at these, I realize these are process milestones and I m looking more for how we re progressing towards our metrics/goals. Is that in a different document?

This is the Milestones document provided at the board meeting. It is an Excel document, not Word. Let me know if this is the one you are looking for. Please note that the spacing is not fixed, so some rows might be cut off upon opening. If you would like me to mess around with it to achieve what you need, let me know and I m happy to work with it.

Hey Bill, can you email me the most up to date milestones dashboard in a word format (not pdf) so I can attempt to adjust it to an executive summary format?
